Re: Shasta County Smoking Ordinance

Dear Jack:

Thank you for forwarding the information concerning the Shasta County Smoking Ordinance. I have now had an opportunity to review the ordinance and I do believe that the ordinance raises many of the same preemption issues which we have addressed in our challenge to the San Francisco Ordinance. Please give me a call at your convenience so that we can discuss appropriate strategies and coordination of effort.

We are also in the process of exploring the Proposition 99 issue. I would greatly appreciate receiving any documentation or any other evidence that you may have concerning the manner and use of Prop. 99 funds for purposes of enforcement.

I look forward to hearing from you.

Very truly yours,

JEFFREY M. TANENBAUM
